# Rugby Athletic Partners with Tundra Rugby Academy

MINNETONKA, Minn. - Rugby Athletic has officially announced a new partnership in which they will serve as the official apparel partner of Tundra Rugby Academy.

"Gaining support from local companies that are going to grow with us and support our mission is a priority for our organization," said Tundra's president, Mikayla Miller. "Rugby Athletic was a perfect fit, and we are really excited about our new partnership."

Founded by some of Minnesota's own, Tundra Rugby Academy is committed to empowering young people through rugby and has recently adopted academy-style programming. With that new style, they aim to provide Minnesota's rugby community with year-round training options and as many competitive opportunities as possible that will support the growth of the game.

"Rugby Athletic is very excited to partner with Tundra Rugby Academy," Rugby Athletic's Chris Babiash said. "Building the game from the grass-roots up is really important to our company and Tundra Rugby has a great foundation and structure in which to really foster local high school athletes. We couldn't be prouder to help them in this endeavor."

In preparation for their upcoming 2017 Las Vegas Invitational tour, held March 1 - 3, Tundra is hosting a two-month training camp series that kicks off this Saturday, January 7 from 1 – 3 pm (CST) in Roseville, MN at Laurus Athletic Rehab and Performance – Tundra's second new partner for 2017. The 2017 Tundra LVI Training Camp is open to all high school boys and girls in the area and is dedicated to serving the whole athlete. Its feature sessions will include baseline fitness testing, basic skill instruction, live game-play, video-led learning, and a strength and conditioning and athlete-nutrition introduction.

Registration for the event is still open. Find them on Facebook at <https://www.facebook.com/tundrarugby/> or email the Tundra staff at [tundrarugby@gmail.com](mailto:tundrarugby@gmail.com) for more information.
